Submission details

A tutor will review your submission and leave comments to help you improve your draft.

Their comments will guide you toward improving your content, argument, structure, and flow, as well as your grammar and spelling. And because academic integrity is important, your tutor will also help you with citations and let you know if you need help to avoid plagiarism.

A line passes through the points (-2, 2) and (1, 0). What is its slope?
1:16 pm

Sure! 😊 📖

Well!
Before starting to explain the steps for solving this; let me ask, what you can tell me about this problem?

I know that slopes can be positive or negative
