

Living Things PYLUSD EL SUMMER CAMP

Join the Living Things EL Summer Camp – A Unique Opportunity for High School Students!

Are you ready to make a difference this summer while building your teaching skills? We invite all high school students to volunteer at our **exciting** EL Summer Camp, where you'll help students develop their language skills through **hands-on activities** in language arts, math, science, art, and more!

This is an amazing opportunity to earn **community service hours** while gaining real classroom experience, **engaging** directly with English Learners, and growing as a future educator. You'll be fully immersed in the world of language development, all while inspiring young minds through **fun, meaningful** learning experiences. Don't miss out – this is the kind of experience that will set you apart while earning community service hours!
